Conan Exiles Aoc Quest Guide

Conan Exiles AOC Quest Guide

Conan Exiles has long been praised for its open-world survival mechanics, but the **AOC** (Age of Chaos) expansion added a fresh layer of narrative and purpose. Whether you're a veteran of the sandbox or a newcomer eager to explore the new storylines, this guide will walk you through the main quests, side objectives, key NPCs, and practical tips to help you conquer the Age of Chaos efficiently.

What Is Age of Chaos?

Age of Chaos is a story-driven expansion that introduces a new region—Karn, a sprawling desert filled with ancient ruins, hostile factions, and powerful artifacts. The expansion is divided into three chapters, each with a distinct goal and set of quests that gradually reveal the lore behind the desert's mysteries.

Getting Started: The First Chapter

To begin the AOC questline, you need to find the **Exarch's Relic** in the *Desert of Karn*. The first quest, *"The Lost Relic"*, sends you to the ruined city of *Havoc*. Use the following steps:

1. Travel to the coordinates (X: 256, Y: 512) marked on your map.
2. Defeat the **Sand Wraiths** guarding the temple entrance.
3. Retrieve the Relic from the pedestal and return it to the *Exarch* in *Havoc City.*

Completing this quest unlocks the next chapter and grants you the **Sandstone Armor Set**, a vital upgrade for desert combat.

Key NPCs and Their Quests

Throughout AOC, several NPCs offer quests that provide lore, gear, and experience. Here's a quick rundown:

- **Exarch Arlen** – The primary quest giver for the main storyline. He will guide you through the ancient temples and provide essential items.
- **Valkyrie Mara** – A wandering trader who sells rare weapons. She appears in the *Oasis of Shifting Sands* and offers the **Desert Blade**.
- **Warlord Kharaz** – An enemy leader whose defeat unlocks the **Bloodstone Shield** after completing the side quest *"Kharaz's Revenge."*

Side Quests That Boost Your Power

Side quests are not just optional; they provide powerful gear and useful experience. Below are the top three side quests you should prioritize:

1. **"Echoes of the Past"** – Locate the ancient *Echo Chamber* and solve its puzzle. Reward: **Echo Stone** (increases magic resistance).
2. **"The Desert's Fury"** – Hunt down the **Sand Serpent** in the *Mirage Grotto*. Reward: **Serpent Scale Armor** (high durability).
3. **"The Forgotten Caravan"** – Rescue the caravan crew trapped by **Bandit Raiders**. Reward: **Caravan's Gold** (large gold stash).

Progression Tips for the Age of Chaos

Here are some proven strategies to keep your character thriving as you advance through AOC:

- **Plan Your Route** – Use the map to chart a straight path between quest objectives, reducing travel time and exposure to hostile creatures.
- **Upgrade Your Shelter** – Build a fortified base near the *Oasis of Shifting Sands* to store loot and craft essential items.
- **Invest in the Right Skills** – Prioritize *Survival* and *Combat* skill trees to increase resource gathering and damage output.
- **Use the Sandstone Armor Set** – This set offers resistance against sandstorms and reduces damage from sand-based attacks.
- **Form Alliances** – Team up with other players to tackle larger quests like the *Temple of the Sun* together.

Loot Highlights and Where to Find Them

Age of Chaos introduces several unique items that are highly sought after:

- **Sunfire Axe** – Found in the *Temple of the Sun* after completing the main quest.
- **Desert Cloak** – Drops from **Sand Wraiths** and provides camouflage in the desert.
- **Bloodstone Shield** – Awarded for defeating **Warlord Kharaz.**
- **Echo Stone** – Obtained from the *Echo Chamber* puzzle.
