## What is Skyward?

Skyward is a cloud-based student information system (SIS) that centralizes data for schools. It allows district staff to manage enrollment, attendance, schedules, and student performance while giving families real-time visibility into their child's progress. For Navasota students, teachers, and parents, Skyward is the primary portal for:

- Viewing grades and report cards
- Checking attendance and tardiness
- Accessing course schedules and homework assignments
- Communicating with teachers and administrators
- Submitting forms such as permission slips and health records
