Teaching and Learning Geography Routledge
This book provides a clear overview of current thinking on the teaching and learning of geography. It is an ideal companion to all students beginning a career in teaching the subject in secondary schools. The chapters are written by experienced teacher educators and bridge both theory and practice. The writers focus on the continuities, whilst setting them in the context of the changing curriculum. The book is divided into four parts. Part One examines the historical context of geography teaching. Part Two looks at issues of course planning, design, syllabuses and programmes of study. Underlying this section is the assumption that geography should not be considered in isolation from other subjects, but rather as part of a whole curriculum. Part Three concentrates on teaching and learning, and includes chapters on the use of maps, field work, IT and first hand experience within a community. The final section covers the issues associated with assessment, across the whole school age range.

Dear World Simon and Schuster
“A story of love and courage amid brutality and terror, this is the testimony of a child who has endured the unthinkable.” —J.K. Rowling “I’m very afraid I will die tonight.” —Bana Alabed, Twitter, October 2, 2016 “Stop killing us.” —Bana Alabed, Twitter, October 6, 2016 “I just want to live without fear.” —Bana Alabed, Twitter, October 12, 2016 When seven-year-old Bana Alabed took to Twitter to describe the horrors she and her family were experiencing in war-torn Syria, her heartrending messages touched the world and gave a voice to millions of innocent children. Bana’s happy childhood was abruptly upended by civil war when she was only three years old. Over the next four years, she knew nothing but bombing, destruction, and fear. Her harrowing ordeal culminated in a brutal siege where she, her parents, and two younger brothers were trapped in Aleppo, with little access to food, water, medicine, or other necessities. Facing death as bombs relentlessly fell around them—one of which completely destroyed their home—Bana and her family embarked on a perilous escape to Turkey. In Bana’s own words, and featuring short, affecting chapters by her mother, Fatemah, Dear World is not just a gripping account of a family endangered by war; it offers a uniquely intimate, child’s perspective on one of the biggest humanitarian crises in history. Bana has lost her best friend, her school, her home, and her homeland. But she has not lost her hope—for herself and for other children around the world who are victims and refugees of war and deserve better lives. Dear World is a powerful reminder of the resilience of the human spirit, the unconquerable courage of a child, and the abiding power of hope. It is a story that will leave you changed.

The mission of this book is to explore the many critical issues surrounding this new phenomenon. Key features include the following. Patchin and Sameer Hinduja are Co-Directors of the Cyberbullying Research Center (www.cyberbullying.us). They experience more complicated lives as influences of the broader society including popular media and technology, immigration and cultural diversity, amplified political divisiveness, and bullying effect their daily lives both in and out of school. These influences have contributed to the need for more socialemotional support and the desire of students and teachers alike to find and express their voices. Since the publication of the 2002 Handbook volume focusing on curriculum, instruction, and assessment, the ideas, approaches, and practices of middle school educators and researchers have also needed to evolve and change in many ways to meet these changing realities and the needs of students, teachers, and schools. This volume includes chapters focusing on varying aspects of curriculum, instruction, and assessment currently being implemented in middle grades classrooms across the country.

At Hartington Manor in the village of Little Moseley, Therese, Lady Osbaldestone, and her household are once again enjoying the company of her intrepid grandchildren, Jamie, George, and Lottie, when they are unexpectedly joined by her ladyship’s youngest and still-unwed son, also the children’s favorite uncle, Christopher. As the Foreign Office’s master intelligencer, Christopher has been ordered into hiding until the department can appropriately deal with the French agent spotted following him in London. Christopher chose to seek refuge in Little Moseley because it’s such a tiny village that anyone without a reason to be there stands out. Neither he nor his office-appointed bodyguard expect to encounter any dramas. Then Christopher spots a lady from London he believes has been hunting him with matrimonial intent. He can’t understand how she tracked him to the village, but determined to avoid her, he enlists the children’s help. The children discover their information-gathering skills are in high demand, and while engaging with the villagers as they usually do and taking part in the village’s traditional events, they do their best to learn what Miss Marion Sewell is up to. But upon reflection, Christopher realizes it’s unlikely the Marion he was so attracted to years before has changed all that much, and he starts to wonder if what she wants to tell him is actually something he might want to hear. Unfortunately, he has set wheels in motion that are not easy to redirect. Although Marion tries to approach him several times, he and she fail to make contact. Then just when it seems they will finally connect, a dangerous stranger lures Marion away. Fearing the worst, Christopher gives chase—trailed by his bodyguard, the children, and a small troop of helpful younger gentlemen. What they discover at nearby Parteger Hall is not at all what anyone expected, and as the action unfolds, the assembled company band together to protect a secret vital to the resolution of the war against Napoleon. Human Security University of Toronto Press
During his lifetime, W.E. Blatz was so much occupied with the development of the University of Toronto’s Institute of Child Study that he was able to devote little time to writing. This is his first book to appear in twenty-one years, and his first complete exposition of his famous Theory of Security. The Theory of Security is radically different from the theories promulgated by Freudian psychologists. Whereas Freudian personality theory is based on the notion of “unconscious,” an entity that is only indirectly observable, the Theory of Security derives from the observation of the conscious state in all its manifestations. Dr. Blatz thus makes use of both empirical observations and the results of introspection, and, as might be expected, some of his conclusions run counter to those reached in much current psychological discussion. But proof of the forcible influence of the theory and its author may be found in the impressive number of books and articles already published by Dr. Blatz’s associates at the Institute of Child Study, applying the theory to the practical problems of psychological observation and therapy. It is fitting that the man whose work has generated so much fruitful research by others in this field should at last have set down in book form the fundamental principles that guided them.
